Notes

Quantity Completed:
17 of 82715-01 Short Step
7 of 82717-01 Long Step
30 of 82733-01 Short Step Bracket

Components:
8 of short step extrusion
~~3 of long step extrusion~~ JC.
Extrusion have caps welded in place
not assembled with forward end

1

2016-110

- place jig on step. Be sure to have step tight against tip of step
- clamp jig into place using 2 large C clamps.
- Be sure jig has not moved from desired position.
- Drill #40 holes on both sides use clamps
- using a #30 bit drill + cleco the bracket holes
- Remove Jig
- Deburr #30 holes in step and tabs
- using CR 3213-4-02 Rivets, rivet tabs on, be sure tabs are in correct position
- place step bracket on step. cleco using #40 ~~drill~~ holes
- Drill up #40 to #30, cleco as you go
- using #40, drill out tab holes, upside to #30.
- Remove, deburr
- replace + cleco bracket on step.
- rivet using CR 3213-4-02. Using proper rivet methods.
- Time for build, 20-23 mins

2016-110

Installer Responsibilities					
This certificate does not constitute authority to install. Installers working in accordance with the national regulations of a country other than that specified in block 1 must ensure that their regulations recognize certifications from the country specified. Statements in blocks 13a or 14a do not constitute installation certification. In all cases, the technical record for the aircraft must contain an installation certification issued in accordance with the applicable national regulations before the aircraft may be flown.

Installer Responsibilities					
This certificate does not constitute authority to install. Installers working in accordance with the national regulations of a country other than that specified in block 1 must ensure that their regulations recognize certifications from the country specified. Statements in blocks 13a or 14a do not constitute installation certification. In all cases, the technical record for the aircraft must contain an installation certification issued in accordance with the applicable national regulations before the aircraft may be flown.

Installer Responsibilities					
This certificate does not constitute authority to install. Installers working in accordance with the national regulations of a country other than that specified in block 1 must ensure that their regulations recognize certifications from the country specified. Statements in blocks 13a or 14a do not constitute installation certification. In all cases, the technical record for the aircraft must contain an installation certification issued in accordance with the applicable national regulations before the aircraft may be flown.
